FOOD CHAIN Magnate

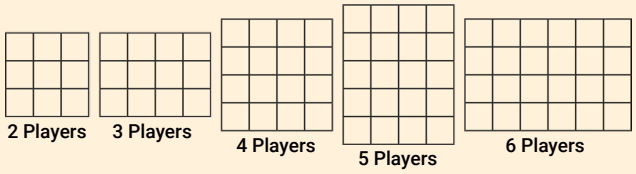

WITH KETCHUP!

SETUP

1. Lay out the Employee Cards; include the Expansion Cards of your choice.
2. Use the following components according to the number of players:

players	1x employee cards used	Billboards removed	Map size
2	1	#12, #15, #16	3x3
3	1	#15, #16	3x4
4	2	#16	4x4
5	3	None	5x4
6	3	None	4x6

3. If playing with Coffee, Kimchi, Sushi, and/or Noodles: Add 1 extra ***LUXURY MANAGER***.
4. If playing with ***RURAL MARKETEERS*** use **Giant Billboards** and **Rural Area** Tile.
5. Create a Map with randomly selected Map Tiles, each in a random orientation. Use the following number of Tiles according to the number of players:
   - You may choose to include the **New Districts**.
   - The Tile with 2 Parks can only be used if you are playing with ***LOBBYISTS***.

6. Place $50 x (the number of players) into the Bank Pool.
7. Each player chooses a Restaurant Chain and receives:
   - **1 *CEO* Card**
   - **1 Turn Marker**
   - **3 Restaurants**
   - **3 Coffee Shops**
   - **1 Menu**
   - **3 Bank Reserve Cards** - either the Base or Expansion Reserve Cards
   - **1 dry erase Milestone Sheet** - either the Base or Expansion Milestones
8. You may place the "**REMOVE AFTER TURN 2**" Tile on the following Milestones: '**1st Burger Marketed**', '**1st Pizza Marketed**', '**1st Drink Marketed**', '**1st To Train Someone**'. Then place the "**REMOVE AFTER TURN 3**" Tile on the '**First To Hire 3 People In 1 Turn**' Milestone.
9. Randomly determine turn order and place Turn Order Markers on the Turn Order Track.
10. In reverse turn order, each player may either place a Restaurant or pass. After the first round of this placement, again in reverse turn order, any players who did not place in the first round MUST now place.
    - Restaurants must be placed on empty squares that do not contain any other elements.
    - Their Entrances must be adjacent to a Road, and during Setup they cannot be placed on the same Map Tile as that of another Restaurant.
11. Each player chooses 1 of their Bank Reserve Cards and places it facedown next to the Bank.

GAME PLAY

Game play takes place over a series of Rounds, each consisting of the following 7 Phases. **GAME END** is triggered when the Bank breaks for the 2nd time.

- At any time except Phase 1, a player can ask to look at another player's Cards.

1) RESTRUCTURING

1. Each player simultaneously chooses which of their Employee Cards are "**AT WORK**" and which are "**ON THE BEACH**" *(i.e. your pile of Cards not being used this Round)*. Your ***CEO*** is always "**AT WORK**".
2. Players place Employee Cards they want to work this turn in a facedown "**AT WORK**" pile.
3. Cards are revealed simultaneously, then placed in a pyramid structure with your ***CEO*** at the top, and each other Employee placed in an empty Slot below.
   - You may not place a ***MANAGER*** in a Slot below another ***MANAGER***.
4. If you don't have enough Slots to hold each Employee you've played this Phase, you must move all your Cards to "**ON THE BEACH**" except for your ***CEO***.

2) ORDER OF BUSINESS

1. Players that have a ***MOVIE STAR*** "**AT WORK**" may choose their order of play before any other player. The ***B-MOVIE STAR*** chooses first, then the ***C***, then the ***D***.
2. Otherwise the player with the most open Slots chooses their position on the Turn Order Track.
3. Then second-most chooses, then third etc...
   Ties go to the player earlier in the previous Turn Order.

3) WORKING 9:00-5:00

In Turn Order each player performs Actions for all of the Cards they have "**AT WORK**" in the following order:

- Any Card effects that affect Money are mandatory, all others are optional.
- If you have a ***NIGHT SHIFT MANAGER***, treat this as if you played 2 copies of every Card that does not require a Salary. This causes each ***MARKETING TRAINEE*** to be allowed to initiate 2 Campaigns; each ***MANAGEMENT TRAINEE*** must keep the same employees in its Slots.

A) RECRUIT

For each Recruitment Action you have on Employee Cards "**AT WORK**", you may Hire 1 entry position Employee ▶, placing the Card in your "**ON THE BEACH**" pile.

- You cannot Hire an Employee if there are none of its Cards available. However you may immediately Train a Hired Employee to the next level in the Training sub-phase, the intermediate Card does not need to be available in the Display.

B) TRAIN

For each Training Action you have on Employee Cards "**AT WORK**", you may Train 1 Employee in your "**ON THE BEACH**" pile 1 step. Return the upgraded Card to the Display and gain the new Training, placing it in your "**ON THE BEACH**" pile.

- You cannot Train an Employee more than 1 level in a single turn unless an ability explicitly allows you to do so.
- If you legally multi-Train an Employee, the intermediate Cards do not need to be available in the Display.
- You can only have 1 copy of each 1x Employee.
- If you Train a ***BARISTA***, or a ***LEAD BARISTA*** you may immediately place 1 Coffee Shop on the Map. Place it on an empty square adjacent to a Road within a Range of 2 Tiles from the Entrance of 1 of your Restaurants or Coffee Shops. If you have no Coffee Shops available then you may then move 1 of your existing Coffee Shops.

C) INITIATE MARKETING CAMPAIGNS

For each ***MARKETEER*** you have "**AT WORK**", you may place 1 Campaign. Each ***MARKETEER*** has a limitation on the type and maximum duration of the Campaign they can place.

i. Place the Campaign: **Billboards**, **Mailboxes**, and **Radios** must be placed on empty squares on the Map, with at least 1 side connected to the Road used to reach the Tile. **Airplanes** are placed adjacent to the Map as they will fly over it from 1 side to the other.

- Campaigns created by ***MARKETING TRAINEES*** must be placed no more than 2 Tiles away from the Entrance of 1 of your Restaurants or Coffee Shops. ***CAMPAIGN MANAGERS*** have the same restrictions but with a Range of 3.
- For each ***RURAL MARKETEER*** you have "**AT WORK**" you may place 1 **Giant Billboard** on 1 free side of the **Rural Area** Tile.

- For each ***GOURMET FOOD CRITIC*** you have "**AT WORK**" you may place 1 **Guidebook** Tile. These are placed by the side of the Map.

ii. Place on the Campaign 1 Food or Drink Demand (Kimchi, Sushi, Noodles, and Coffee cannot be Marketed) of your choice from the General Supply, per turn you want the Campaign to last. Up to the maximum Limit allowed by the ***MARKETEER***.

- **Guidebook** Tiles have a maximum Limit of 3 Demands.
- If you have the '**First Billboard Placed**' Milestone, use the ∞ side of the Tile and place 1 Demand; this Campaign will be in place eternally.
- **Giant Billboards** placed by ***RURAL MARKETEERS*** are also in place eternally.

iii. Set the ***MARKETEER*** aside with a Busy Marker 14 matching the number of the Campaign.

D) GET FOOD, DRINKS, AND COFFEE

For each Kitchen Staff you have "**AT WORK**", you may gain Food, Drinks, and Coffee from the General Supply following the instructions on the Card.

- Kimchi is not produced until the Clean Up Phase.

E) PLACE NEW HOUSES AND GARDENS

Each ***NEW BUSINESS DEVELOPER*** **"AT WORK"** may be used to **EITHER**:

a. Place 1 new House on empty spaces with some portion orthogonally adjacent to a Road.
b. Place 1 new Garden on empty spaces adjacent to a Garden-less House to form a 2x3 rectangle.

6) PLACE NEW ROADS AND PARKS

Each ***LOBBYIST*** **"AT WORK"** may be used to **EITHER**:

a. Place 1 new Road on empty spaces, **"UNDER CONSTRUCTION"** side up, with 1 of its arrows pointing directly to an existing Road. For each of the arrows that point directly to an existing Road square, place 1 Roadworks Marker on the Tile.
b. Place 1 new Park on empty spaces adjacent to a Road.

LOBBYISTS have a Range of 2 from the Entrance of 1 of your Restaurants or Coffee Shops, and can only place new Tiles adjacent to a Road square you can reach.

7) PLACE OR MOVE RESTAURANTS

Each ***LOCAL MANAGER*** **"AT WORK"** may be used to place 1 new Restaurant within a Range of 3 Tiles, travelled by Road, from the Entrance of 1 of your existing Restaurants or Coffee Shops. It does not have to be placed on the Road used to determine Range. The Restaurant is placed **"COMING SOON!"** side up.

Each ***REGIONAL MANAGER*** **"AT WORK"** may be used to place 1 new, or move 1 existing Restaurant anywhere on the Map. The Restaurant is active immediately.

- Restaurants may be placed with their Entrance on the same Tile as another Restaurant.
- Restaurants must be placed on empty squares without any other elements, with their Entrances facing a Road.
- **DRIVETHROUGH**: If you have a ***LOCAL*** and/or ***REGIONAL MANAGER*** **"AT WORK"**, all of your Restaurants have an Entrance on each corner for this Round.

4) DINNERTIME

1. In numerical order, each House with Demands will attempt to eat.
   - The **Rural Area** Tile is treated as a House and always goes last to eat.
   - π comes between Houses 3 and 4. 9 ¾ comes between Houses 9 and 10.

i. The House drives to the Restaurant Chain that has the Food and/or Drink Items in its Supply that will meet **ALL** of their Demands, at the lowest Opportunity Cost (**Price Per Item** + **Distance**). Ties are broken by the ***B***, then ***C***, then ***D-MOVIE STAR***, followed by most ***WAITRESSES***, then earliest Turn Order.

Price Per Item = $10, **+/-** any modifiers.
Distance = The number of Tiles the Restaurant is from the House, **+/-** any modifiers. Calculate Distance for the **Rural Area** from any Freeway. Each Roadworks Marker crossed on the way to the Restaurant adds +1 to the Distance.

- If a Restaurant Chain can offer Kimchi in addition to the Food and/or Drink Items that will meet **ALL** Demands, then the House will go to that Restaurant regardless of Opportunity Cost. If multiple Restaurant Chains can offer this, ties are broken by usual rules. Only 1 Kimchi can be sold per House.

- If the House has a Garden, and a Restaurant Chain can offer 1 Sushi in replacement of **EACH** Food and/or Drink Item it Demands, then the House will go to that Restaurant regardless of Opportunity Cost. If multiple Restaurant Chains can offer this, ties are broken by usual rules.

- If a House cannot find any Restaurant that can fulfil **ALL** of its Demands, they will instead go to a Restaurant that can offer 1 Noodle in replacement of **EACH** Food and/or Drink Item it Demands.

ORDER OF PRIORITY = 1) Kimchi + sufficient Sushi. 2) Kimchi + actual Demands. 3) Kimchi + sufficient Noodles. 4) Sufficient Sushi. 5) Actual Demands. 6) Sufficient Noodles.

ii. The Restaurant Chain that meets this criteria gains the Price Per Item. Multiply this number by 2 if the House has a Garden, or is adjacent to a Park (or x3 if the House has a Garden and is also adjacent to a Park).
iii. Each ***FRY CHEF*** that player has **"AT WORK"** then grants a Bonus of $10.
iv. If the shortest Route to the Restaurant leads past a Coffee Shop of a player who has Coffee in their Supply, the House will consume 1 Coffee there.

- If there are multiple shortest Routes, they will take the Route that sells the most Coffee.
- If there are ties for shortest Routes then skip all tied Coffee Shops along the parts of a Route that cannot be decided.
- Coffee is sold with the same Price Per Item rules as Food and Drink.
- Sushi and Noodles cannot be used as a replacement for Coffee.

v. Discard any consumed Food/Drink Items and the Demand Items from the House.

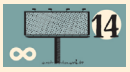

2. After all Houses have been served, each player receives $3 *(+ $2 if you have the 'First Waitress Played' Milestone)* per ***WAITRESS*** they have **"AT WORK"**.
3. If you have a ***CFO*** **"AT WORK"**, or have the 'First To Have $100' Milestone, add an additional 50% to all of your Income you receive this Phase.

5) PAYDAY

1. Each player may Fire any number of their Employees *(either **"AT WORK"** or **"ON THE BEACH"**)*, apart from any Busy ***MARKETEERS***. Return the Cards to the Display.
   - You must fire anyone you cannot pay. Busy ***MARKETEERS*** cannot be fired unless you've no other Employees *(your **CEO** cannot be Fired)*.
2. Pay $5 for all remaining Employees with a Icon, minus any Salary discounts.

6) MARKETING CAMPAIGNS

1. In numerical order, apply the effects of each Campaign.
   - Gardens are considered part of that particular House when considering Campaign reach.
   - Each Campaign places 1 Demand on each House it reaches.
   - Each House can have a maximum of 3 Demands (or 5 with a Garden).
   - Apartments gain 2 Demands instead of 1 and have no max. Demand Limit.

- **Billboards** reach orthogonally adjacent Houses.

- **Mailboxes** reach all Houses within a Block without crossing a Road.

- **Airplanes** reach every House they fly over from 1 side of the Map to the other.

- **Radios** reach every House within 1 Tile diagonally or orthogonally.

- **Giant Billboards** market the same Goods twice. Place the Demands on the **Rural Area** Tile. The **Rural Area** has no maximum Demand Limit.

- **Guidebooks** reach all Houses with a Garden.

2. For each ***MASS MARKETEER*** played by **ANY** player, repeat step 1.
3. Remove 1 Demand from each non-eternal Campaign.
4. Remove any finished Campaigns and move the corresponding ***MARKETEERS*** to **"ON THE BEACH"**.

7) CLEAN UP

1. Discard all Food, Drink, and Coffee Items. Players with a Freezer can choose to store up to 10 Food and Drink Items of their choice. Kimchi can be stored but a Freezer containing Kimchi cannot store any other Food or Drinks. Coffee cannot be stored in a Freezer and must be discarded.
2. Each ***KIMCHI MASTER*** now produces 1 Kimchi which is automatically stored till the next Round.
3. Collect all Employee Cards from **"AT WORK"** and **"ON THE BEACH"** into hand. Leave any Busy ***MARKETEERS***.
4. Flip over all **"COMING SOON!"** Restaurants to their **"WELCOME"** side.
5. Remove all Roadworks Markers, and flip any **"UNDER CONSTRUCTION"** Road Tiles faceup.
6. Any Milestones awarded this turn are now unavailable for the rest of the game.
7. After Round 2 remove any remaining **'Remove after turn 2'** Milestones. After Round 3 remove the **'First To Hire 3 People In 1 Turn'** Milestone if remaining.

BANK BREAKS

When the Bank runs out of Money for the first time, immediately reveal all facedown Reserve Cards and add that total amount of Money to the Bank.

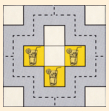

- **If playing with Base Cards:** if there is 1 type of Card that occurs more than any other, this is the number of Slots available on each player's ***CEO*** for the rest of the Game. In a tie, the Cards with the Higher number of Slots wins.
- **If playing with Expansion Cards:** if there is 1 type of Card that occurs more than any other, this Price becomes the new Base Unit Price. Ties are broken as follows: $20 wins over $10 and $5; $5 wins over $10.

END GAME

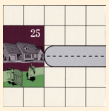

When the Bank runs out of Money for the second time the Game ends. Finish Phase 4, players can receive more Money than is available from the Bank.

The player with the most money is the Winner.
Ties are broken by Turn Order.

NEW DISTRICTS

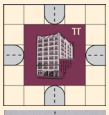

Provides multiple sources of Lemonade.
A Zeppelin passing over will collect from all 3 sources.

Has a Garden.
You cannot trace a Route through the House.

Has 2 Parks.

APARTMENTS

Campaigns Marketed to an Apartment grant 2 Demands instead of 1. They have no maximum Demand Limit.

- Apartments cannot gain a Garden, but they can be affected by Parks.
- π comes between Houses 3 and 4.
- 9 ¾ comes between Houses 9 and 10.
- The π Building has 4 disconnected Entrances, you cannot trace a Route through it.
- Mailbox Campaigns will pass through the π Building.

NEW STRUCTURES

Coffee Shops have Entrances on all 4 sides.
Coffee Shops can be used to determine Distance like Restaurants.
If you have no Coffee Shops available when you are able to place 1, you may then move 1 of your existing Coffee Shops.

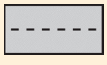

Coffee does not count as a Drink, and it cannot be Marketed.

A House with a Garden, or adjacent to a Park pays double the Unit Price for each Food and/or Drink Item consumed.

If a House has a Garden and is also adjacent to a Park then it pays triple the Unit Price.

A Road "**UNDER CONSTRUCTION**" cannot be used.
If 2 Roads run adjacent and parallel, they are considered connected.

BASE MILESTONES

1ST TO LOWER PRICES: For the rest of the game your prices are $1 lower.

1ST BURGER PRODUCED: Gain 1 Burger Cook, placing it in your "**ON THE BEACH**" pile.

1ST PIZZA PRODUCED: Gain 1 Pizza Cook, placing it in your "**ON THE BEACH**" pile.

1ST ERRAND BOY PLAYED: Errand Boys, Cart Operators, Truck Drivers, and Zeppelin Pilots gain 1 extra Drink per source they encounter.

1ST CART OPERATOR PLAYED: Cart Operators, Truck Drivers, and Zeppelin Pilots gain 1 to their Range.

1ST BURGER MARKETED: + $5 for every Burger sold.
X: Unavailable after Round 2.

1ST PIZZA MARKETED: + $5 for every Pizza sold.
X: Unavailable after Round 2.

1ST DRINK MARKETED: + $5 for every Drink sold *(Coffee is not a Drink)*.
X: Unavailable after Round 2.

1ST BILLBOARD PLACED: All Marketing is eternal. Do not pay salaries for any Marketers.

1ST RADIO CAMPAIGN: Each Radio Markets 2 Demands instead of 1.

1ST AIRPLANE CAMPAIGN: Count 2 extra Slots when determining Turn Order.

1ST WAITRESS PLAYED: Receive $5 instead of $3 for each Waitress.

1ST TO HAVE $20: You may look at the facedown Bank Reserve Cards.

1ST TO HAVE $100: May not have a CFO Employee Card; if you already have 1 you must Fire it in Phase 5. Add an additional 50% to all of your Income you receive in Phase 4 *(rounded up)*.

1ST TO THROW AWAY DRINK/FOOD: Gain a "Freezer" that can store up to 10 Food or Drink Items.

1ST TO HIRE 3 PEOPLE IN 1 TURN: Gain 2 Management Trainees, placing them in your "**ON THE BEACH**" pile. **X: Unavailable after Round 3.**

1ST TO PAY $20 OR MORE IN SALARIES: *(this Money must be actually spent)*. You may use multiple Trainers on the same Employee.

1ST TO TRAIN SOMEONE: You must pay $15 less for Salaries.
X: Unavailable after Round 2.

EXPANSION MILESTONES
"Used" is different from "Played".

1ST MARKETEER USED: Gain $5 for every Demand your Marketeers Market. Your Opportunity Cost has a Distance of -2. **X: Unavailable after Round 2.**

1ST MARKETING TRAINEE USED: Gain 1 Kitchen Trainee, and 1 Errand Boy, placing them in your "**ON THE BEACH**" pile.

1ST CAMPAIGN MANAGER USED: This Campaign Manager may place a 2nd Marketing Tile of the same type, marketing the same Demand for the same Duration. *This one-time use benefit must be used immediately or it is lost.*

1ST RURAL MARKETER USED: Place 1 Freeway connecting to a Road. Freeways can't be placed over Airplanes.

1ST BRAND DIRECTOR USED: Any Radio Campaigns you create will be eternal.

1ST BRAND MANAGER USED: This Brand Manager may place a 2nd Demand on the same Campaign if you used an Airplane. These are Marketed in order, A then B. *This one-time use benefit must be used immediately or it is lost.*

1ST BURGER SOLD: Your CEO will always have 4 Slots.

1ST PIZZA SOLD: For the 1st 3 Houses or Apartments that buy a Pizza from you this turn, place 1 Radio Campaign for Pizza with a Duration of 2 on that Tile. These are not linked to a Marketer.

1ST BEER SOLD: You may pay any Employee's Salary with 1 Item of Food or Drink. You may pay some Employees with Money and others with Food.

1ST LEMONADE SOLD: You may Train Employees "**AT WORK**", as long as they don't change to a different colour. Place the new Card in your Structure, it may be used this turn if the Old Employee was not yet used.

1ST COKE SOLD: Gain a "Freezer" that can store up to 10 Food or Drink Items.

1ST CART OPERATOR USED: Cart Operators, Truck Drivers, and Zeppelin Pilots gain double their normal amount of Drinks per symbol.

1ST COFFEE SOLD: Build 1 Coffee Shop in the next Clean Up Phase. There is no Range restriction.

1ST HOUSE BUILT: You may use multiple Trainers on the same Employee.

1ST WAITRESS USED: Each Employee's base Salary is now $3 instead of $5.

1ST NEW RESTAURANT: Place 1 eternal Mailbox Campaign in the Restaurant's area, with a Demand of your choice. This is not linked to a Marketer.

1ST DISCOUNT MANAGER USED: Each Round that you discount your Unit Price by $3 or more, discard $100 from the Bank.

1ST RECRUITING GIRL USED: Gain 1 Executive Vice President, placing it in your "**ON THE BEACH**" pile. He requires no Salary. If there are none left available in game, gain 1 from the Box. **X: Unavailable after Round 2.**

1ST TRAINER USED: Gain 1 Trainer, placing it in your "**ON THE BEACH**" pile. You no longer need to fire Employees if you're broke.
X: Unavailable after Round 2.

SOMEONE SELLS YOUR DEMAND: Your Opportunity Cost has a Distance of -1.

1ST LOBBYIST USED: Place an unused Map Tile, if there are any still available. The Tile must be placed with 1 side fully lined up with another Tile. It cannot be placed on a side containing an Airplane or Freeway.
